Re: Proposed Roadway, Graymont Western USA, Inc., Cricket Mountain, M/027/006, Millard County, Utah

Dear Mr. Jackson:

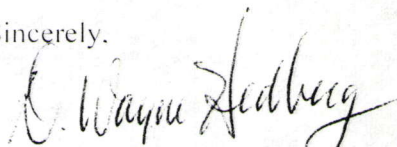

On December 12th and 16th, we received correspondence from you regarding Millard County's proposal to cross property owned by Graymont Western, USA, Inc. for the purpose of constructing or otherwise using a roadway to access a proposed communications tower and related facilities communication site. Included in the correspondence was a letter from Graymont and the Bureau of Land Management authorizing you to use their properties for this purpose.

Your letter stated that Millard County assumes any and all responsibility and liability for maintenance, reclamation, or any other type of incidental obligation regarding the impacts of any roadway Millard County constructs or uses for the purpose of accessing the proposed communication site.

The Division hereby grants authorization to commence with construction of the roadway for the purposes intended. The Division will not hold Graymont responsible or liable for any reclamation of this roadway. This road will now become the responsibility of Millard County.

If you have any concerns regarding this letter, please contact me at (801) 538-5321.

Sincerely,

for Tom Munson, Senior Reclamation Hydrologist
Utah Division of Oil, Gas and Mining
